

Dolly Parton, Too Lonely Too Long

(Dolly Parton)

No matter how you're tempted
Don't say yes to me
Don't make this night as smooth to lead me on
It's just that I'm so lonely and I need someone
I've been too lonely too long
Oh please be strong enough to refuse me
Before I let myself do something wrong
For down inside I'm not that kind of woman
I've been too lonely too long

Oh please don't take advantage of the situation
For I'm afraid that I'm too weak to resist temptation
When you're used to being loved
It's hard to live alone
I've been too lonely too long
I've been too lonely too long
