Don Diablo, Heaven To Me (ft. Alex Clare)

I promise i won"t waste your time leave it up to me and now I'll blow your mind I know the moment when you set me free coz i was in hell and back and this look like heave to me

coz I've seen some lows and highs million miles away more then once or twice coz i was in hell and back and this look like heave to me

Heaven to me Heaven to me Heaven to me Heaven to me Heaven to me Heaven to me

coz i was in hell and back and this look like heave to me coz i was in hell and back and this look like heave to me

I'm standing, all cloud down take away the gravy and leave mi with sunshine I can believe, I feel finally coz i was in hell and back and this look like heave to me

I've seen the darkness days that's how I know this is the time and place and you're the only one to set me free coz i was in hell and back and this look like heave to me

Heaven to me Heaven to me Heaven to me Heaven to me Heaven to me Heaven to me

coz i was in hell and back and this look like heave to me coz i was in hell and back and this look like heave to me
