

# Don Dokken, Forever

(Dokken, Davis)

Searching for answers  
I found one  
Looking for roses  
But the season is gone

I see the eyes of a stranger  
I don't know you anymore  
I know my heart is in danger  
Lost in you just like before

Searching for reasons  
One more time  
As we turn back the pages  
Who said love isn't blind?

As I reached out for heaven  
You were all I could see  
You told me "Try to imagine...  
Forever...just you and me"

1ST CHORUS:

It was the word that you said  
That took you into my heart  
It was the word you said  
Forever...  
Lost in the sea...of my memories  
Whispered emotions, passions unbarred  
In the heat of the moment  
So many things that we said

You found the end of my sadness  
You buried all of my pain  
Now love's turned into madness  
Echoes are all that remain

2ND CHORUS:

It was the word that you said  
That took you into my heart  
It was the tears that we shed  
Forever...Lost in the sea

1ST CHORUS:

Just memories...forever lost just like me

2ND CHORUS
