

Don Felder, Heavy Metal

Drive it on up and let's cruise a while
Leave 'em very far behind
You can hedge your bet on a clean corvette
To get you there right on time
Now if you're ready to dive into overdrive
Baby the green lights are on
It's like you're runnin away on some high octane
Every time she reached the boulevard

Won't you take a ride, ride, ride
On heavy metal
It's the only way that you can travel
Down that road
Satisfied, fied, fied
On heavy metal
Baby won't you ride
Ride it until it explodes
Heavy Metal

My oh my how this lady can fly
Once she starts rollin' to leave you
You know you just can't lose the way she moves
You wait for her to finally release you
It's not a big surprise to feel your temperature rise
You've gotta get your redline fever
'Cause there is just on cure that they know for sure
You just become a heavy metal believer

Won't you take a ride, ride, ride
On heavy metal
It's the only way that you can travel
Down that road
Satisfied, fied, fied
On heavy metal
Baby won't you ride
Ride it until it explodes
Heavy Metal
