

Don Moen, Be Praised

All praises to the One
From whom it all began
The One who formed the stars
And who gave life to man
You set the world in motion
Created sky and ocean
And here I stand, beloved
And called by name

Be praised
Be praised
Listen to creation
Lifting up Your name
Be praised
Be praised
Be praised
Yeah yeah

All praises to the One
From whom it all began
The One who gave Himself
To save sinful men

You scorned the shame on the Cross
My sin, my blame is now gone
And here I stand
Beloved and called by name

Be praised
Be praised
Listen to your people
Lifting up Your name
Be praised
Be praised
Be praised
Yeah yeah, yeah yeah yeah

All praises to the One
From whom it all began
The One who conquered death
And who will come again

The nations will behold You
As everything becomes new
And here I'll stand
Beloved and called by name

Be praised
Be praised
Listen to Your people
Lifting up Your name
Be praised
Be praised
Be praised
Yeah yeah

Be praised
Be praised
Listen to Your people
Lifting up Your name
Be praised
Be praised
Be praised
Yeah yeah, yeah yeah yeah
