

# Don Williams, I Wouldn't Want To Live If You Didn't

Sometimes you may think I take you for granted  
And granted, sometimes maybe I do  
Cause I've grown so used to you lying next to me  
That I wouldn't want to live if you didn't love me

CHORUS:

No I wouldn't want to get up in the morning if you weren't there  
To kiss me and start my day off right  
And to be waiting when I get home with loving just for me  
No I wouldn't want to live if you didn't love me  
It's love that makes the world go round  
And my love for you just grows with leaps and bounds  
Cause you know just what to do when the world has turned all blue  
And I wouldn't want to live if you didn't love me
