

Don Williams, If Love Gets There Before I Do

Another twenty miles and I'm halfway there,
Another twenty miles and I'm running scared
It's a beautiful night and I should be there

I know you are tired of waiting
And I know you are tired of hesitating

If love gets there before I do,
Darling don't you take it.
If love gets there before I do,
Darling don't you do it, no don't you do it

I know you're hearing line from those other guys
Trying to wear you down under starry sky
But you know that I want you to just hold on

I know you are tired of waiting
And I know you are tired of hesitating

If love gets there before I do,
Darling don't you take it.
If love gets there before I do,
Darling don't you do it, no don't you do it
