

Donell Jones, Do You Wanna

[Intro]

Whassup, baby?

This is a night that you'll never forget

Huh, for all the things that you desire

I got it right here, baby

Guess what?

I'm back, I'm back

Baby, the mood is right

And the stars are out tonight

I can't wait 'till you get home

I got some rose petals leading to the bedroom door

Where I'm waiting all alone with candles lit

Glass of Perignon

Wanna make you lose control

Girl I'm telling you, tonight is yours

All I wanna know is

Do you wanna love me

(Gonna give you the reason so you can love me forever, babe)

I wanna make love, babe

(Make your temperature rise until you say it's too hot, babe)

Do you wanna feel me

(Touchin' and rubbin' and lovin' all of your body)

It's just you and me, baby

(Gonna tickle your spot until you tell me to stop, babe)

Passionate as can be, as I softly kiss your ear

I'm gon' give you what you want

Straight to the highest peak

Let me be your ecstasy

This gon' last the whole night long

As we become one, smell of love is strong

Want you to feel it in your soul

Girl I'm telling you, tonight is yours

All I wanna know is

Do you wanna love me

(Gonna give you the reason so you can love me forever, babe)

I wanna make love, babe

(Make your temperature rise until you say it's too hot, babe)

Do you wanna feel me

(Touchin' and rubbin' and lovin' all of your body)

It's just you and me, baby

(Gonna tickle your spot until you tell me to stop, babe)

Anything you wanna do

Baby girl, I'm willing to do (Whassup, baby)

On the way to ecstasy (I just want to touch you)

You and me between the sheets (And feel you)

I want the whole world to know (Yeah)

I'm givin' you my heart and soul (You like that?)

(I promise not to miss one spot)

Forever girl I wanna see you lying here next to me

('cause there here, gon' last forever, and ever)

All I wanna know is (And ever) do you wanna love me

Do you wanna love me

(Gonna give you the reason so you can love me forever, babe)

I wanna make love, babe

(Make your temperature rise until you say it's too hot, babe)

Do you wanna feel me

(Touchin' and rubbin' and lovin' all of your body)
It's just you and me, baby
(Gonna tickle your spot until you tell me to stop, babe)

Do you wanna love me
(Gonna give you the reason so you can love me forever, babe)
I wanna make love, babe
(Make your temperature rise until you say it's too hot, babe)
Do you wanna feel me
(Touchin' and rubbin' and lovin' all of your body)
It's just you and me, baby
(Gonna tickle your spot until you tell me to stop, babe)
