

Donell Jones, Think About It

chorus:

Think About
Think about
Think about
Think about it
Won't you
Think about
Think about
Think about
Think about it
(repeat)

Would you mind if I could give you
Every part of me
And give you the moon and stars above
(the moon and stars above) yeah ooohh yeah
Would you like if I could take you
to exstacy
show you the love you truely need
Baby won't you, baby won't you

Chorus (2x)

See I'm waiting for the moment
to be with you
So forget all things he put you through
(so forget all the things that he put you through) yeah
You should know I wanna take you
from your misery
So you can be treated like a queen
And all you gotta do is

Chorus (2x)
(Shhhhhhh just think about it)

All I wanna do is
give my love to you (love to you)
Whenever you need me
I'm gonna see ya through (see ya through)
All I wanna do is
give my love to you (love to you)
Whenever you need me
I'm gonna see ya through (see ya through)

(can't nobody do u like I do
cuz i'm that kind of man)

Chorus (till end)
