

# Donna Cruz, I Will Be There To Stay

Until the time  
When love no longer lasts for everyone  
My love will still be strong

I'll spend my life  
And every part of it with only you  
Until the world is through

'Til every love starts to fade  
'Til there's no tomorrow  
I'll be here to stay with you  
Until the world may stop believin'-  
-And when every heart begins to break  
And be filled with sorrow  
I'll be here to stay forever true  
And stay in love with you

I live my life  
The way you wanna spend your life with me  
The world will start to see  
A love that lasts  
And lovers that will never be apart  
Until the end of time

'Til every love starts to fade  
'Til there's no tomorrow  
I'll be here to stay with you  
Until the world may stop believin'-  
-And when every heart begins to break  
And be filled with sorrow  
I'll be here to stay forever true  
And stay in love with you

Sometimes a love feels wrong  
And lovers fail to carry on  
Our love will stay so right  
'Cause I'll be here just holding on

'Til every love starts to fade  
'Til there's no tomorrow  
I'll be here to stay with you  
Until the world may stop believin'-  
-And when every heart begins to break  
And be filled with sorrow  
I'll be here to stay forever true  
And stay in love with you

When every heart begins to break  
And be filled with sorrow  
I'll be here to stay forever true  
And stay in love with you...
