(Verse 1)

Don't look back now
don't look back over years gone by
they're gone and now it's time to live
don't look back now
you have to let your childhood go
and then you'll find a peace within

(Chorus)

and you will free your mind to sleep
and you will free yourself to weep
and you will free your mind to sleep
and you will free yourself to weep

(Verse 2)

don't be afraid
you have so many choices
hold your head up high and say goodbye
no second thoughts
you have a future waiting
take my hand and I will show the way

(Chorus to fade)
