

Donna Summer, Nobody

Hey you, over there
come on down out of my sky
I've been a long long time waiting
wonder why
some people say say
they say that love comes only once
some people say say
they say that love comes only once
but oh, life is like a rolling stone
God bless the child who's got his own yeah
a million times in a million ways
I'd give my life just hear
to hear somebody say

Nobody, nobody, nobody
can ever love you the way I do
nobody, nobody, nobody
can ever love you the way I do
and I really do

Life can bring some tragedy sometimes
so don't keep looking at the bad things
sometimes love can even blow your little mind
now I've seen it starting to happen
you've gotta believe in the good things
believe in the good things
you gotta believe that there's something that hold us in a sunny place
you gotta believe that the sky won't fall
believe that's it's worth it all

you gotta believe that there's light at the end of the tunnel
and I know bad things sometimes happen for nothing
but there's got to be reason we all found each other
that we live and breathe and we need somebody else
that's what I said

Nobody, nobody, nobody
can ever love you the way I do
nobody, nobody, nobody
can ever love you the way I do
and I really do

Like a river running wild
like a river running wild
I wanna walk down a down a country mile, oh baby
no no nobody loves me
no no nobody loves you
the way I do
no one can love you the way I do
nobody no no nobody baby
can ever love you like I do
and I really do
Oh baby
I really do
Oh baby
I really do
I love you
baby I love you
