

# Donna Summer, With Your Love

Lay your love all over me  
fill me to the top  
only you can set me free  
with your love, your love, your love  
with your love, your love; your love

Got to cool this fire  
make this burning stop  
you can take me higher  
with your love, your love, your love  
with your love, your love, your love  
love, love, love...

Won't you come to me tonight  
I'll open up the door  
come and fill the night with light  
with your love, your love, your love  
with your love, your love, your love

Since you came into my life  
I'm feeling so complete  
you made a woman out of me  
with your love, your love, your love  
with your love, your love, your love  
love love love
