Donnie Klang, Love In Stereo

She feelin' me though your girlfriend tellin' me you're ready to go On the floor to get my attention she dropped it low

She was so seductive, I'd pay a fee if she'd let me touch it

I'm outta my mind the way she looked into my eyes

She said if you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

I said if you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

Stereo, we can make love in stereo

I need you both so we can make love in stereo

Stereo, we can make love in stereo

I need you both so we can make love in stereo

If you're feelin' me though I know a little place where we can go

Baby let me know if you need a private show

We can do whatever, you and her dressed in leather What's on your mind? Tell me how to do that one more time

If you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

She said if you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

Stereo, we can make love in stereo

I need you both so we can make love in stereo

Stereo, we can make love in stereo

I need you both so we can make love in stereo

If you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

If you wanna break it down, if you wanna break it down

We can break it on down right here

Stereo, we can make love in stereo

I need you both so we can make love in stereo

Stereo, we can make love in stereo

I need you both so we can make love in stereo

So we can make love in stereo
