Cause I can't continue to be stupid
I gave you my heart
I gave you my trust
No mather what I did for you
It never was enough

[Chorus:]

Why you wanna throooooow our love away
Forgett about the days
Memories we use to share
How you gonna let it go to waste and give up what was beautiful
Forgett about the days and just throw it all the away
Throw it all away

[Verse 2:]

Baby I'm tired of crying
And the late nights
From getting no sleepin
I sacrifice myself
To the was nothing left
No mather what I did for you
You never could be there

Why you wanna throooooow our love away
Forgett about the days
Memories we use to share
How you gonna let it go to waste and give up what was beautiful
Forgett about the days and just throw it all the away

[Verse 3:]

What about all we were before
Maybe
The things you said to me
Should now listening or should I know, don't you?
Instead of hoppin
Instead of crying
Instead of waiting for you to change
But you proove me wrong and gave up on me

[Chorus:]

Why you wanna throooooow our love away
Forgett about the days
Memories we use to share
How you gonna let it go to waste and give up what was beautiful
Forgett about the days and just throw It all the away
