

Doomshine, Creation

noble savage winged with power
far away from kingdom come
battle through the darkest hours
I create my lunar sun

I rule eternal, see me shine
seven days I'll fly
vast and immortal, sway over time
circle in a thermal

wild empire strong and virgin
are you lost in reverie ?
ancient solar storms are raging
from the outset free from sins

I`m divine...

here`s my creation, come to my seas
sailing on salvation, I was sent to be... supreme!
sense my creation, behold these hills
scenes of celebration instead of battlefields
