Doomsword, Swords Of Doom

We're the ones we're the ones the chosen to wield the swords of doom we've got to fight to free from the curse that made us the bringers of scorn and war

[Bridge:] "In countless battles I'll have to fight 'till my sacred blade will shine bright this holy sword will guide my heart and only death can do us apart"

"Fight, my warrior,fight Show the gods your might"

[Chorus:] Swords of Doom
