

Dope stars inc, Just The Same For You

Please follow straight the way that will lead you
To read me deep inside cause i love you.
And now please come with me let confusion fade away.
I can't stand waiting. i can't stand waiting.
Wherever my love is written
For you only you is right to know
And read down inside the deepest
Corners of my open soul.
I used to call you my treasure
But now you're my new religion
Because i feel just the same for you
