

Dope, Voodoo Crush

This is full of hatred
for what you've done to me
Life is so frustrated
beneath the skin you see
I tried not to see you
to see what's not there
tried so hard to be you, yeah
now I'm nowhere
(chorus)I've had enough
I've got nothing left
I've had enough
man I'm done with it
I've had enough
I've got nothing left
I've had enough
man you're full of shit
This is what I'm bleeding
& why I've gone severe
what is so worth saving
& suddenly you care
I tried not to hate you
to see what's not there
tried so hard to beat you, yeah
now I don't care
(chorus)
what a life I've wasted
I've known the whole time
I know I'm fading
but now I don't mind
