

# Doro, Bad Blood

Have you heard the latest news  
War burning in the human state  
Can't keep it in the name of God  
Can't take it in the name of hate  
Dirty lies of a promised peace  
Running with the falling rain  
Down to the bone we lose compassion  
(Keep a secret, lose the faith)  
Does heaven bleed?  
What could it be, are they comin' for me  
In the night a child's cryin'  
All lost in another disease  
Can't stand it in the name of God  
Can't blame it in the name of peace  
I'll trade you a hand grenade  
For a night that doesn't scream  
Down to the bone we fight with passion  
Keep a secret, lose the faith  
Keep your distance, feel the pain  
Keep the fire, take the blame  
Does heaven bleed?  
What could it be, are they comin' for me  
And if I saw you  
Would you recognize my face  
War can change you  
Rearrange you all the same  
Chorus
