

# Doro, Even Angels Cry

Every time you call  
you can't imagine what it's like  
I'm getting chills  
I hear your voice each time  
And every time we talk  
I get shivers down my spine  
I can't deny  
you're always on my mind  
I never had this feeling  
never so strong before  
with every day I want you more  
I can't stop believing  
I can't stop dreaming  
oh God I wish I would know  
What can take me into your heart  
what can I do  
would you help me from falling apart  
Is my love enough for you?! Enough for your  
Everywhere I go  
I wish you would pass me by  
I keep on waiting for you anytime  
And every night I pray  
you would think of me sometimes  
hope I could move your heart  
your soul your mind...  
Would it really matter  
if I knew you better  
would you know which way to go  
I can't stop believing  
I can't stop dreaming  
it's you or no one in this world!  
What can take me into your heart  
what can I do  
would you help me from falling apart  
Is my love enough for you, enough for you  
I never had this feeling  
never so strong before  
with every day I want you more  
I can't stop believing  
I can't stop dreaming  
oh God, I wish I would know  
Repeat chorus
