Doro, Lets Rock Foreve

It's the first thing in the morning the last thing late at night I get overwhelmed with sorrow' I know' I won't survive I'm feeling that you're leaving just when the time is right and I know there's no tomorrow will I ever see the light You said it's forever what did I do do you remember I meant everything to you You said you'd always love me till the very last day of my life are you saying now its time to die you swore you'd never leave me till the very last day of my life are you saying that you'll change your mind tonight Oh I don't know where it started but I know where it will end and I pray that you'll still love me cause my life is in your hands I'm lost inside without you I hope you are as well and I feel my soul is stranded alone in this living hell You said it's forever what did I do do you remember I meant everything to you Repeat chorus Now I'm still waiting alone bore in the dark collecting all the pieces of another foolish heart Repeat chorus In the night when you told me you never let me go in the night I'm still waiting for you to hold me, you to ... in the night you will hold me and tell me we will go and never let me go and never let me go
