

Doro Pesch, I Wanna Live

You never thought
I would last
Just another rat
Caught up in your trap
I fought free
I play rough
I'm taking off
Cause you know i've had enough

I fake you out
I don't want you round
I'll break you
Can you feel me coming through

I wanna live
Don't wanna die
And that's the way it is
I wanna live
I will survive
I'm never giving in

I nearly got
Your disease
You had me down
Falling to my knees

It's funny how
Things have changed
Now I'm cool
Cause things have rearranged

I fake you out
I don't want you around
I'll break you
Can you feel me coming through

I wanna live
Don't wanna die
And that's the way it is
I wanna live
I will survive
I'm never giving in
