Doro, You're My Family

Everyone hurts, everyone bleeds With all this pain right underneath All we need is holding on We got the key To carry on 'Cause you are

Chorus: You're my family You're my destiny The only ones The only ones I want You mean more to me More than life can be The only ones The only ones I love We're united in our hearts

The world is turning cold and dark Our lives so wounded Full of scars And when I'm out here on my own I don't have to face it all alone 'Cause I know

Chorus: You're my family You're my destiny The only ones The only ones I want You mean more to me More than life can be The only ones The only ones I love We're united in our hearts
