

Dottie West, Before The Ring On Your Finger Turns

He's just leadin' you on honey he'll be gone
Before the ring on your finger turns green

Your new love is the playboy kind he's not looking for the ties that bind
He'll leave you with a tortured mind before the ring on your finger turns green
He's just leadin' you...

He's fickle cheap and phoney too just like the ring he gave to you
I know cause I've been through it too when the ring on my finger turned green
He's just leadin' you...
Before the ring on your finger turns green
