

Dottie West, Fair Weather Lover

Fair weather lover that's what you've always been
My fair weather lover you're leaving once again

When the sun is shining and everything looks rosy
This is when you say you love me so
But when a storm appears oh it's all the different story
Just when I need you most of all
Fair weather lover...

You're always by my side and understand when I'm smiling
This is when you say you love me so
But when times are bad oh it's all the different story
Just when I need you most of all
Fair weather lover...
Oh but this time it don't matter go find yourself another
It's farewell fair weather lover
