

Dottie West, Give Him My Love

If you see my love with someone new please stop and give him my love
And if he should say she's his dream come true be sure and give him my love
And then if he should reach in a kiss so sweet and on his face a smile
As she rest her head on his shoulder and dreams of a walk down the isle
If it's you he greets with a warm hello just stop and give him my love
And if he still he says that he loves her so be sure and give him my love
And if he should think to ask of me if she clings to him like a glove
Just tell him I miss him and give him my love (give him my love)
