

# Dottie West, Night Life

When the evening sun goes down you will find me hanging round  
Oh the night life ain't no good life but it's my life  
Many people just like me dreaming of old used-to-be  
No the night life ain't no good life but it's my life  
Listen to the blues they're playin' oh listen what the blues keeps sayin'  
Mine is just another scene from the world of broken dreams  
Oh the night life ain't no good life but it's my life
