

# Double Drive, Belief System

Yeah

Put a pair of black shoes on that man  
Get another black shroud for him  
Wake up in this nightmare  
Wipe the sweat from your brow  
Lookin' for a change  
To make some sense  
You get the little green men from him  
Livin' in an Inuendo  
Linear time to spare

"Our Meteorica has been sent"  
Our captain said  
Release the breath you're holdin'  
You go to die 'til you get there  
And what I really want to know  
What I mean to say  
You've ordered up somethin'  
Delivery's on the way

You want off this world  
And now you're gonna leave it  
Come inside and sit down  
Beside yourself

Who is Flyin' the ship now  
Oh, you won't believe it  
Come inside and sit down  
Beside yourself  
I don't think you're ready  
You got to stay  
You got to go  
I don't think you're ready  
You got to stay  
you go to go  
I don't think you're ready  
you got to stay  
you got to go  
I don't think you're ready  
you go....  
Oh you wont believe it  
come inside and sit down beside yourself  
come and sit down right now  
come side inside and sit donw beisde youself  
come and sit down right now  
SIT...
