

# Doves, One Of These Days

Say something  
Anything will do my love  
There's a girl on the 'phone  
That's the girl who's never home  
Say something good  
There's a wilderness of hope  
That's the girl, on the 'phone  
That's the girl who's never home  
And your friends they were so close  
Say you will stay  
Forgot what I came here for  
Passing signs on the road  
Telling me I'm far from home  
Strangers out here  
Myself I disappear  
That's the killer on a call  
That's the man who works alone  
Your friends they were so close  
One by one they didn't stay  
Drift away like rolling sea  
One by one they drift away  
One of these days  
One of these days  
And your friends they were so close  
One by one they didn't stay  
Drift away like rolling seas  
Day by day they drift away  
And the people that were close  
Are the ones you miss the most  
One of these days I'll blow away  
One of these days I'll blow away
