

# Down By Law, Haircut

pearl jam clones are everywhere  
fuck that shit, go cut your fucking hair  
Seattle sound is all around  
but where's the huevos in that sound  
go to the Whisky, see a band  
just all an 'L' and you've got bland  
all those bands just sound the same  
and they all look so fucking lame  
and I don't want to hear it  
everybody's trying to make it  
heard it all a million times  
grab the brass ring before it falls down  
wish they'd all just go away  
pearl jam clones are everywhere  
fuck that shit, go cut your fucking hair  
not one word original  
not one word original  
and then they all fall down  
they all go down  
grab the brass ring  
find the pot of gold
