

# Down By Law, Mat Gleason Is God

want to know the reason  
I just don't walk away  
try to find the answers  
that's the time they slip away  
why can't it be easy?  
if I believed that's what I'd pray  
God I know we're making dents  
by changing today  
in times of trouble, times of pain  
and we're the ones who see it  
we've got to seize the day  
when I die I want to know  
we helped to make a difference  
find a reason  
find a rhyme  
and we can help refine it  
we've gotta go!  
we're gonna see it through  
your times are calling you  
there's so much darkness in our day  
bleed the planet, kill each other  
freedom what a price we pay  
I'd swallow all the poison  
to make it go away . . .  
find a reason  
find a rhyme  
and we can help refine it
