

# Down By Law, Next to Go

living -- if you can call this living  
thinking will it ever go away?  
dying -- there's all these people dying  
i'm conscious of it every single day

[chorus]

who's gonna be the next to go?  
walking in a new kind of fear  
laughing at all the people here  
asking how could this happen here?  
taking my choices away

[chorus]

under the gun  
well it's been a month, standing in the shadows  
under the gun  
well it's been a month, hiding from the sun  
parking lots all up and down the interstate  
and on the news it's a great debate  
back to the normal? it will have to wait
