

Down By Law, Yellow Rat Bastard

Been looking for so long
Where you going to find it?
Been thinking for so long
Where's it going to be for me?
And you won't find it
Even if you look forever and a day
It's not something you just pick up and walk away
'Cause I know what it means to me
I know what it means for me
I know so, why, when, always, when it's always
Where's it going to be for me?
And you won't find it
Even if you look forever and a day
It's not something you just pick up and walk away
'Cause I know what it means to me
I know what it means for me
I know so, why, when, always, when it's always
Where's it going to be for me?
