

# Downhere, Break My Heart (Bonus Track)

I've longed for a vision  
could I only follow through  
ill miss your great commission  
to love just like you do  
you've heard my prayers for wisdom  
and you've heard me ask for strength  
i need your true conviction  
take my life in your hands

would you break my heart with the things that break your heart  
whoa break my heart with that break the things that break your heart  
break my heart

i seek no signs or wonders  
i need no miracles  
they're just a swirling dust trail  
behind everywhere you go  
ill be a light in darkness  
and bring the hope of life  
is there a better reason  
to do what i know is right

so would you break my heart with the things that break your heart  
break my heart with that break the things that break your heart  
break my heart

whoah

stir in my being and shake out my soul  
courage to follow in truth that i know  
to carry your cross to wear your name  
oh lord this one thing i pray

break my heart  
break my heart with the things that break your heart  
break my heart with that break the things that break your heart  
break my heart

break my heart with the things that break the things that break your heart  
break my heart

(these Lyrics are by ear so i cannot guarantee 100% accuracy)
