

DQ, Somewhere down the Line

I cant believe that time has passed us by
Here Im asking why
I still touch the sky
Right from the moment I laid eyes on you
I knew what to do
My one wish came true
I dreamt of someone to hold
On this rollercoaster
And as the stories unfold
I believe the blast will last
Cause I know were still gonna make it
At least were gonna give it a try
Theres a good chance were able to take it
And leave all reasons why
I am stronger than I used to be
And somewhere down the line
I just know were gonna make it in time
Lets leave the concept of reality
Do things differently
Set our inhibitions free
Weve got a love thats too good to be true
From my point of view
Were the chosen few
I bend the shapes of the mold
In this game of chance and
Im getting out of control
Numb my pain and keep me sane
Chorus
Somehow and someday
Well find a new way
And somewhere its out there
I know
Come lets go
