

# Dr. Dog, Ain't It Strange

Aint it strange  
How everybody says I love you  
Aint it a shame  
How a word can tell you more than words can say  
I need you here

Aint it strange  
Cause Im always thinking of you  
Aint it a shame  
How a thought can catch the breeze and blow away  
I need you here

Oh but I know how bad it can get  
But I dont mind  
Baby I dont mind  
But I know how soon youll forget me  
But time keeps blaring  
Baby time takes care of me

Ain't it strange  
How a man who lives for nothing can change  
'Cause if he stays the same hell die a million days  
Year by year  
Theres a drain

At the bottom of the ocean  
And when it rains  
We'll get close to where the water meets the sky  
For you and I

Oh but I dont know how far this could go  
But I don't mind  
Baby I don't mind  
There's no use in saying  
That you've been straying  
But even strangers know how strange it can be

We're only getting old  
'Cause that's what we are told to do  
But they sang to get through  
But what's that got to do with us  
So go on and work it out
