

Dr. Feelgood, Back In The Night

(Wilko Johnson)

KEY: Emaj

Back in the night I lay down by your fireside
Back in the night you shook me like a landslide
I nearly missed the early shift
Dreamin&amp;acute; in the morning &amp;acute;bout the things we did

Back in the night
Back in the night
Back in the night
Back in the night
Beneath your love light

I woke up on the floor, I asked you for some breakfast
You shoved me out the door, I jumped on to the late bus
I got to smile, I like your style
You put me out this morning but you know that I&amp;acute;ll be

Back in the night
Back in the night
Back in the night
Back in the night
Beneath your love light

The days go by so slow, I feel just like I&amp;acute;m dying
Stop work whistle blow and then I start reviving
Across your yard, beneath the stars
I made it thru another day and here we are

Back in the night
Back in the night
Back in the night
Back in the night
Beneath your love light
