

Dr. Feelgood, Coming To You

(lee brilleaux/gypie mayo)

You know good thing
You drive me to drink
If I've had my way
I'd put you away
Baby, you got it coming to you

The way you do
Baby, you better come through
Clean up your acts
I'm grinding my axe
Baby, you got it coming to you

I'm sorry you're not glad about it
In fact I'm even proud about it
What I did and who with

You've had your day
Get down on your knees girl, start to pray
Love isn't blind
You better hope I'll change my mind
Baby, you got it coming to you

- guitar solo -

Love isn't blind
You better hope I'll change my mind
Baby, you got it coming to you
You got it coming
Oh baby, got it coming
You got it coming to you
You got it coming to you
