

# Dr. Feelgood, Hit Git And Split

Hit, git and split, I'm coming back home to you  
Hit, git and split, I'm coming back home to you  
There's nobody here gonna take the place of you

I got the blues, my baby's not here with me  
I got the blues, my baby's not here with me

She's a little bitty chick and I'm never gonna let her be

Hit, git and split, I'm coming back home to you  
Hit, git and split, I'm coming back home to you  
There's nobody here gonna take the place of you

Clean the house woman, this time I'm on my way  
Clean the house woman, this time I'm on my way  
Don't make no plans for I'm coming back home to stay
