

Dr. Hook & The Medicine Show, Years From Now

(R. Cook/C. Cochran)

Years from now, I'll want you years from now
And I'll hold you years from now, as I love you tonight
You are my one true friend, always my one true friend
And I'll love you 'til life's end, as I love you tonight
I know this world that we live in can be hard now and then
And it will be again, many times we've been down
But still love has kept us together, the flame never dies
When I look in your eyes, the future I see
Wanting you years from now, and holding you years from now
And loving you years from now, as I love you tonight
I know this world that we live in can be hard now and then
And it will be again, many times we've been down
Still love has kept us together, the flame never dies
When I look in your eyes, the future I see
Wanting you years from now, and holding you years from now
And loving you years from now, as I love you tonight
