Dr. Hook & The Medicine Show, Years From Now

(R. Cook/C. Cochran) Years from now, I'll want you years from now And I'll hold you years from now, as I love you tonight You are my one true friend, always my one true friend And I'll love you 'til life's end, as I love you tonight I know this world that we live in can be hard now and then And it will be again, many times we've been down But still love has kept us together, the flame never dies When I look in your eyes, the future I see Wanting you years from now, and holding you years from now And loving you years from now, as I love you tonight I know this world that we live in can be hard now and then And it will be again, many times we've been down Still love has kept us together, the flame never dies When I look in your eyes, the future I see Wanting you years from now, and holding you years from now And loving you years from now, as I love you tonight (c) Screen Gems-EMI Music Ltd.
