

Dr. Sin, Howlin' In The Shadows

(Dr. Sin)

Crawlin' on all fours thru the mean streets
Headin' downtown
Craving for some fresh meat
Caught by the call of the night
Howlin' in the shadows
Waitin' for the right time
Searchin' for a victim
Hungry for love
And you know what kind of love
I'm talkin' about
She slid through the dark, played the part of the
innocent prey
Trading on her good looks
Oh she was drivin' me wild
It's almost midnight
I hear the cry of action
And here she comes all alone
dodging moonlight
It's just an act of passion
She's not alone anymore
Acting like a mad dog
I should be locked in a cage
I can't control
When my needs drive me to this rage
