

# Dr. Sin, Lost And Confused

There is a time in our lives  
We have to decide what to do  
Inside our minds  
So lost and confused  
We feel like committing a crime

Seems like time is passing by  
Seems like life has left me behind  
Feels like trying trying so hard  
I can't find, find a way out

No way out, no way out, no way out  
Sometimes I cry deep down  
inside - I can't find a place I'd be safe
