

# Dragonforce, Disciples Of Babylon (Demo Version)

Can you imagine that it's all up to you?  
Evil embrace of powers unnatural  
You're left in silence nothing more to behold  
You close your eyes and visualize the day you'll get away

It's here, it's near  
I see it all so clear  
Tonight your flight will take you higher  
It's here, it's near  
You live a life of fear  
Tonight is the night that will inspire

Crying alone at night your destiny unknown  
Your every being full of rage and hate  
Seems like you're running but you just can not hide  
It's in a raging fear all solitude is left behind

It's here, it's near  
I see it all so clear  
Tonight your flight will take you higher  
It's here, it's near  
You live a life of fear  
Tonight is the night that will inspire

Can he comfort thee?  
And fill your life with ecstasy  
Through the darkness  
And the pain  
Will you be the ones again?

Disciples of Babylon

It's here, it's near  
I see it all so clear  
Tonight your flight will take you higher  
It's here, it's near  
You live a life of fear  
Tonight is the night that will inspire

Can he comfort thee?...

It's here, it's near  
I see it all so clear  
Tonight your flight will take you higher  
It's here, it's near  
You live a life of fear  
Tonight is the night that will inspire

Can he comfort thee?...
