

Dragonforce, Doomsday Party ft. Elize Ryd, Amaranthe

It's a doomsday party at the old town hall
A doomsday party on the factory floor, we pray
Say hey, hey, hey, hey

It's a doomsday party at the old town hall
A doomsday party and a disco ball
A doomsday party on the factory floor, we pray
Say hey, hey, hey, hey

So pack your bags tonight cause there's no one home
Fading skies of blue are now an empty hole
Endless winter nights, fuel is running low
Spend our lives at work but nothing to bring home

None of your prayers will be answered
And none of your lives will be saved
You're on a bad trip to the grave

It's a doomsday party at the old town hall
A doomsday party and a disco ball
A doomsday party on the factory floor, we pray
Say hey, hey, hey, hey

It's a doomsday party, shake the bodies down
You don't stop moving till you hit the ground
A doomsday party, better raise your hands high here today
Say hey, hey, hey, hey

But still the clock ticks by in this lonely town
When it's said and done, when the walls come down
But we love our land, we accept our fate
So we do what we're told and drink our vodka straight

None of your prayers will be answered
And none of your lives will be saved
You're on a bad trip to the grave

It's a doomsday party at the old town hall
A doomsday party and a disco ball
A doomsday party on the factory floor, we pray
Say hey, hey, hey, hey

It's a doomsday party, shake the bodies down
You don't stop moving till you hit the ground
A doomsday party, better raise your hands high here today
Say hey, hey, hey, hey

Everything around was beautiful, we were young, we were free then
Everything was green and gold before, and we danced in the stars
Remember when we were so beautiful, but the rain started falling
And everything in our whole world was grey, and we lost what was ours

It's a doomsday party at the old town hall
A doomsday party and a disco ball
A doomsday party on the factory floor, we pray
Say hey, hey, hey, hey

It's a doomsday party, shake the bodies down
You don't stop moving till you hit the ground
A doomsday party, better raise your hands high here today
Say hey, hey, hey, hey
hey, hey, hey, hey
hey, hey, hey, hey
