

# Dragonforce, Once In A Lifetime

[Music: Sam Totman, Lyrics: ZP Theart, Sam Totman]

Dark clouds and thunderstorms in the fires and flames were born  
Through darkness traveling on the night  
Hellfires and rain will fall time is coming for us all  
Our journey for the guiding light

Firelight it is burning so bright in the dark of the night  
As we fight for the glory tonight there's nowhere to hide  
On the wings of your destiny brings all the power you crave  
Careful now if not you then who else will we save

Lost in this world total stranger  
Death by the sword a common danger  
You know that everything is not what it seems  
March on all night forever searching  
Daylight ahead coming again  
Break through the walls and use the power of your dreams

Once in a lifetime take a chance at the right time the glory to see  
Rise up for the time of your life  
Now the time has come for you to be free

In the minds of society we all live in harmony  
Truth is that we all die in vain  
You stand for what you believe  
I kill for what I conceive  
Is there then a title for this game?

Lost in this world total stranger  
Death by the sword a common danger  
You know that everything is not what it seems  
March on all night forever searching  
Daylight ahead coming again  
Break through the walls and use the power of your dreams

Once in a lifetime take a chance at the right time the glory to see  
Rise up for the time of your life  
Now the time has come for you to be free

[Solos - Herman / Sam / Herman / Sam / Herman]
