

# Dragonforce, The Sun Is Dead

Inception  
Death's guiding us the way  
We fight till the end  
Among the ruins  
Illusion  
Of brighter days ahead  
Through confusion and hatred, we try to understand  
In silence, we stand alone

Caught in the eye  
A quest for life beneath a stormy sky  
The strength to rise again

Time to realize  
Our race has come to nothing  
We'll start it all again

The sun is dead now  
Fading away forever  
The darkness prevails now  
But with the prayers of the dead  
Now a new light ascends from the stars

Confusion  
The sadness and the pain  
Matricide, the earth is now dead  
Remember the brighter days  
When hope and joy were shining in our hearts  
Times have changed now, we suffer yet try to understand  
In silence, we stand alone

Caught in the eye  
The fragments of my past to realize  
It's time to rise again

In the world's demise  
Our race has come to nothing  
We'll start it all again

The sun is dead now  
Fading away forever  
The darkness prevails now  
But with the prayers of the dead  
Now a new light ascends from the stars

The sun is dead now  
But in the end, what did we learn?

The sun is dead now  
Fading away forever  
The darkness prevails now  
But with the prayers of the dead  
Now a new light ascends from the stars

Now a new light ascends from the stars
