

# Dragonforce, Trail Of Broken Hearts

Here we are far beyond the distant sky  
We've seen all the world and how the story will be over  
Through the snow and tainted mountains we have climbed  
Now we have found the light that guides us over

Through the fallen rain we travelled far and wide  
And through the blackest darkness  
Stars above shining bright

Through the sun and winter rain we'll fall  
All our lives we have been waiting for a sound to call  
We're walking hand in hand in dreams and endless time  
How do we know when we will leave this life behind?

Staring life through eyes of mine to hate the fear and the pain  
There's a feeling held deep inside - the life you live is in vain

[Chorus]  
Fly away down the lonely roads of yesterday  
Close your eyes to see the light of latter days  
And all the memory that time can never heal  
With the trail of broken hearts flying free

Once again we walk this lonely road  
There are times that we are wading through the rain and cold  
We're lost in memories of what we left behind  
Relive the dreams, the endless screams of pain inside

Lives are filled with emptiness  
The fear returned once again  
Searching endlessly now we will see  
Drown your mind in the pain

[Chorus]

The last temptation will be all that's left for me

When I see those tears you cry  
When I hear those lies you lie  
When I see your creation now for an enemy  
Is this the reason to be?

[Chorus]

The trail of broken hearts flying free
