

# Dragpipe, Tuesday

I wanna light you  
I wanna taste just what you got  
I wanna feel you  
I wanna be everything you're not  
And in this reason  
There are things i'll never know  
And when i'm bleeding  
I wanna put what i got in you  
I wanna feel you  
Don't wanna heal you  
Just wanna steal you  
For one day (x2)  
Don't wanna drive you  
I wanna go every place you got  
Don't wanna try you  
I wanna live every plan you plot  
And in this moment  
There are things i'll never know  
And when i'm bleeding  
I wanna put what i got in you  
I wanna feel you  
Don't wanna heal you  
Just wanna steal you  
For one day (x2)  
Everytime i look into your eyes  
I see a different girl  
Everytime i look into your eyes  
I see a different world  
I wanna feel you  
Don't wanna heal you  
Just wanna steal you  
For one day  
For someday  
I'll keep you  
For someday
